Dayforce bulletin board

The bulletin board is the section of the year-end guide where Dayforce introduces new enhancements and provides you with suggested topics for review, resource information, and an introduction to some of the tools Dayforce offers to enhance your year-end processing.

New in 2024

Federal & Quebec Changes

- **Province of Employment** - CRA and RQ updated their Province of Employment (POE) administrative policies effective January 1, 2024. There is a decision tree on the CRA website that allows POE assignment to a permanent establishment within a virtual employee's province of attachment rather than the province from which they are paid.
- **Second Additional CPP/QPP Contributions** - Beginning in 2024, pensionable earnings from the YMPE to the new second earnings ceiling, called the YAMPE (Year's Additional Maximum Pensionable Earnings) became subject to additional CPP and QPP contributions of 4% each for employees and employers.

These second contribution amounts will be reported to 2024 tax forms as follows: T4 Box 16A (CPP2), T4 Box 17A (QPP2) and RL-1 Box B.B (QPP2) and B-2 (CPP2).

- **Quebec Pension Plan** - QPP administration for older workers was modified:
 - Starting in 2024, employees aged 65 and over had a new option to stop paying QPP contributions if they were receiving a QPP or CPP retirement pension. The election form to stop or restart contributions is called an RR-50-V.
 - Employees who turned 73 in 2024 were no longer obligated to contribute to QPP. QPP deductions were to have stopped with the first pay of January 2024 for employees with a 1951 birthyear.
- **Electronic Filing Threshold** - CRA reduced the threshold for filing tax forms electronically from 50 to 5 for 26 different form types including T4, T4A, N4R, and T4A-NR4 starting in 2024.
- **New T4 Codes** - in May 2024, CRA introduced new codes to the T4 slip for the 2024 tax year by modifying its "T4 slip – Information for employers" webpage:
 - **Code 94, Indian Act (exempt employment income) - RPP contributions** Report only the employee contributions to a registered pension plan (RPP) that relate to tax-exempt employment income paid to Status Indians. Note: RPP contributions that relate to taxable employment income are still to be reported to T4 Box 20.
 - **Code 95, Indian Act (exempt employment income) - Unions Dues** Report only union dues related to tax-exempt employment income paid to Status

Indians. Note: union dues that relate to taxable employment income are still to be reported to T4 Box 44.

- **New T4 and RL-1 Codes Capital Gains changes** - Canada's Federal Budget 2024 announced an increase in the capital gains inclusion rate from 1/2 to 2/3 on the portion of capital gains realized in the year that exceed 250,000 for individuals, for capital gains realized on or after June 25, 2024. Revenu Quebec has confirmed a harmonized change consistent with the federal announcement. To support stock option benefit and deduction reporting in 2024, it is anticipated that there will be new T4 and RL-1 Codes introduced. More guidance is expected from Canada Revenue Agency and Revenu Quebec this fall.
- **Quebec's Health Services Fund (QHSF) Threshold** - The upper total payroll threshold for the Health Services Fund (beyond which the rate is 4.26%) increased in January 2024 (from 7.2M to 7.5M) based on indexation.

Provincial Changes

- **Prince Edward Island**
 - **Personal income tax** - starting January 2024, increased the basic personal amount from 12,000 to 13,500. Also, effective January 2024, personal income tax rates were reduced on the first 3 income thresholds, there were 2 new upper-income thresholds and the 10% surtax stopped being applied.
 - **Paid sick leave** - starting October 1, 2024, introduced an entitlement of up to 3 paid sick leave days. This was in addition to the historic 3 unpaid sick leave days. The number of paid days available per year depends on the length of employment and unused days do not carry forward; 1 day after 12 months, 2 days after 24 months and 3 days after 36 months.
- **Manitoba** - effective January 2024:
 - **Personal income tax** - increased the personal income tax upper thresholds from 36,842 to 47,000, from 79,625 to 100,000 and from > 79,625 to > 100,000.
 - **Health and Education Levy (HE Levy)** – increased the exemption threshold from 2.0M to 2.25M, and the upper threshold from 4.0M to 4.5M.
- **British Columbia** - has implemented a number of changes that involve payroll:
 - **WorkSafeBC assessable earnings** - in January 2024 updated guidance was released that changed how assessable payroll is to be determined. Taxable benefits that had previously been excluded are to be included starting in 2024. Refer to BC's Assessment Practice Directive 5-245-2(A), Appendix B for details.
 - **Employer Health Tax (EHT)** - in April 2024 the EHT exemption increased from 500,000 to 1M and the notch rate increased from 2.925% to 5.85%. The changes applied to remuneration paid on or after January 1, 2024.
 - **Pay Transparency Reporting** - on November 1, 2024 employers with 1,000 or more BC employees were required to complete and post a pay transparency report for the first time. The process involves an analysis of employees' salary, hours worked, bonus pay, overtime pay and overtime hours. An online reporting tool is available to assist employers.

The requirement for this report will extend to employers with 300 or more BC employees by November 1, 2025. The threshold drops to 50 or more BC employees by November 1, 2026.

New for 2025

Federal & Quebec Changes

- **Final CPP/QPP enhancement (2019 to 2025)** - The Canada Pension Plan enhancement was introduced through a 7-year gradual phase-in starting on January 1, 2019. Starting 2025, the YAMPE will be approximately 14% above the YMPE, increasing from approximately 7% in 2024.

Provincial Tax

- **Prince Edward Island** - has announced an increase to the basic personal amount from 13,500 to 14,250 starting January 2025. In addition, that personal income tax thresholds will be raised and the tax rates will be reduced on the first 4 income thresholds. A bill has not yet been introduced.
- **Manitoba** - intends to phase out the basic personal tax credit amount for individuals with a net income range between 200,000 and 400,000, effective January 2025. Bill 37 was introduced in May, 2024 but this amendment has not yet passed.
- **Nova Scotia** - has passed changes for January 2025 that will begin to index personal income tax brackets and the following tax credits; the basic personal amount, spousal amount, dependant amount, infirm dependant amount and age amount. Employees who have completed a TD1-NS with a non-basic claim amount should review the increased entitlements and consider submitting an update.

Provincial Payroll/Health-related Tax

- **Quebec's Health Services Fund (QHSF) Threshold** - The upper total payroll threshold for the Health Services Fund (beyond which the rate is 4.26%) is expected to increase in January 2025 (from 7.5M) based on indexation.

Important topics to review

During the year-end process, please take the time to review the following sections of the year-end guide:

- *Important dates and deadlines*, page 35.
- How to initiate the production of your tax forms with IVR, page 47.
- Troubleshooting, page 59.

Resources for year-end information

In addition to this guide, please refer to the following for more information on year-end and processing tax forms:

- For further details concerning payroll deductions, consult Canada Revenue Agency's (CRA's) Employers' Guide - Payroll Deductions and Remittances ([T4001](#))
- For Revenu Québec information, see their Guide for Employers: Source Deductions and Contributions (<https://www.revenuquebec.ca/en/online-services/forms-and-publications/current-details/tp-1015.q-v/>)
- Access the above sites and other employer guides from federal, provincial, and territorial government websites.

Self-Serve tax form initiation

Starting in January of the new year, all initial tax form requests must be made by you, via Dayforce's self-serve IVR (Interactive Voice Response) service.

Using IVR provides fast, convenient self-service and IVR is available 24 hours a day, seven days a week.

Please be prepared by ensuring that you have your IVR Branch ID, Payroll ID and PIN number on hand. If you do not have this information, please contact your Service Delivery Team for assistance.

For more information on how to use IVR and when it is available, see *How to initiate the production of your tax forms with IVR*, page 47.

Dating of payrolls

Legislation requires that amounts (e.g. earnings, statutory deductions, etc.) belong to the year in which they are paid. This is determined by the **payment date**. For example, if a pay period ends on December 31, 2024 and is paid on January 3, 2025, this is considered earnings for 2025 and, therefore, to be included in the 2025 tax form.

Checklist of 2024-2025 year-end activities

This checklist is your primary tool for processing your year-end with Dayforce. All tasks are sequentially ordered, and references to other sections of this guide are provided. Use this checklist to ensure that all necessary tasks are completed in order and on time.

November 2024

☑ Action	Deadline
<input type="checkbox"/> To prepare for tax form initiation, ensure you have your IVR Branch ID, Payroll ID and PIN number. See <i>How to initiate the production of your tax forms with IVR</i> , page 47 for details.	
<input type="checkbox"/> When you receive your preliminary year-end reports package, follow the instructions for each report to ensure that the information it contains is correct as of the pay period ending date shown in the upper right-hand corner of each report. For each of the following items, verify that they are correct by checking the relevant reports. For further information see <i>Year-end reports</i> , page 20.	At least 5 days prior to your final input with a 2024 cheque date
<input type="checkbox"/> For each employee (including those on terminated status, verify: <ul style="list-style-type: none"> • Name and address • Social Insurance Number • CPP/QPP, EI and QPIP (Québec Parental Insurance Plan) deficiencies • Province(s) of employment for 2024 	
<input type="checkbox"/> Verify Business Number(s) (BNs) and/or Québec Remittance Account Number(s) <input type="checkbox"/> Verify EI/QPIP reduced rates, with associated BNs, for 2024.	

☑ Action	Deadline
<input type="checkbox"/> Review Earnings and Deduction/Benefit Matrix to ensure all codes are accurate and are directed to the appropriate box on the T4/RL-1. <input type="checkbox"/> If your payroll includes employees in any of the following provinces, verify: <ul style="list-style-type: none"> • Manitoba Health and Post Secondary Education Tax Number • Ontario Employer Health Tax Number • Newfoundland and Labrador Health and Post Secondary Education Tax Number • Northwest Territories/Nunavut Payroll Tax Number • Nova Scotia WCB account number and rate • CSST employer number and rate, Revenu Québec Identification No. <input type="checkbox"/> If applicable verify: <ul style="list-style-type: none"> • Deferred Profit Sharing Plan Number(s) • Registered Pension Plan Number(s) (plan # must be 7 numeric digits) <input type="checkbox"/> If your payroll has employees in any of the provinces or territories that have medical/payroll tax plans (NL, ON, MB, QC, NT, NU) and the projected earnings for these jurisdictions for the new year may result in a change in the way that Dayforce calculates your provincial health care levy, please contact your Service Delivery Team. Dayforce does not calculate or remit BC EHT on behalf of employers.	
<input type="checkbox"/> Plan for the first pay of 2025, and for any special bonus or vacation runs, if required. For date and schedule information, see <i>Important holiday, bank, and direct deposit dates</i> , page 17.	December 1, 2024

December 2024

☑ Action	Deadline
<input type="checkbox"/> Review your tax form counts for all payrolls under the same business registration number and ensure your filing method is set appropriately for mandatory electronic filing	Prior to processing tax forms

☑ Action	Deadline
<input type="checkbox"/> Employer-offered dental benefits – update the dental code to identify whether your employee or their family members were eligible on December 31 to access any dental care insurance you offered. (mandatory)	Send to Dayforce prior to your last payroll run of 2024
<input type="checkbox"/> Verify and reconcile the remittance amounts made by Dayforce, on your behalf, during the year by comparing them with the reports from the appropriate government agency (For example: PD7A for Federal and TPZ-1015.R. 14(1,2,3,4)-v for Québec).	
<input type="checkbox"/> Notify Dayforce, in writing, of any changes to your company's EI/QPIP reduced rates, CRA and Revenu Québec remittance frequencies, and/or WCB assessment rate effective for 2025. Advise Dayforce of any changes to your CSST assessment rate effective for 2025, if applicable (Québec employers only).	Minimum 7 business days prior to your first payroll of 2025
<input type="checkbox"/> If you have a weekly or biweekly payroll and your cheque date would normally fall on January 1, 2025 , see <i>Dating your final pay of the year</i> , page 24.	
<input type="checkbox"/> If pension adjustments (PAs) are being calculated by an actuary , ensure that they are available prior to processing your tax forms. See <i>Calculating pension adjustments (PAs)</i> , page 21.	
<input type="checkbox"/> If you have employees in Ontario , forward your annual EHT Exemption amount for 2025 to Dayforce. For further information, see <i>Ontario Employer Health Tax (EHT)</i> , page 52.	Minimum 7 business days prior to your first payroll of 2025
<input type="checkbox"/> If you have employees in Nova Scotia , forward your 2025 WCB rates to Dayforce.	Minimum 7 business days prior to your first payroll of 2025
<input type="checkbox"/> If you have employees in Québec , inform Dayforce of your total Worldwide Wages amount for 2024 by completing and faxing the <i>Formulaire d'information pour le Fonds des services de santé du Québec / Québec Health Services Fund Information Form</i> , page 65 to your Service Delivery Team.	Minimum 7 business days prior to processing your first pay of 2025

☑ Action	Deadline
☐ Using the appropriate method for your input format, signal which payroll run will be the last one dated in 2024. For information about signalling, see <i>Signaling your final pay run of the year</i> , page 23.	
☐ If you have employees in Québec , inform Dayforce of any changes to your CSST rates.	
☐ Dayforce Insync users: Perform year-end processing (see <i>Dayforce Insync at year-end</i> , page 26).	
☐ Confirm that your payroll output from the final pay of the year (where the year-end signal was processed) contains your new set of year-end balancing reports for verification.	

January 2025

☑ Action	Deadline
☐ To terminate employees in the first pay period of 2025 , see <i>The first pay of the new year</i> , page 33.	
☐ If you have a company pension plan under Code GE , and each employee is set in the previous year with a YTD maximum amount, these amounts must be re-entered in the new year. Please contact your Service Delivery Team for assistance.	
☐ Ensure that tax exemption amounts for employees, other than basic, are updated with your first payroll of the year.	First pay period in 2025
☐ Deduction codes 1E-8E or 10E-89E allow for a target feature where the deduction automatically stops once the deduction reaches zero. If you are using this feature and the target amounts for the employees reached zero earlier in the year, you must enter new target amounts to activate the deduction at some point in the new year (e.g., United Way).	First pay period in 2025
☐ Ensure that any exception tax (YD, YQ , TA or QA) amounts for employees who have CRA/Revenu Québec letters (for reductions in taxable remuneration) and/or TK3 or PK3 amounts for federal/provincial tax credits are reviewed and re-set to zero on the first pay of the new year, or adjusted as required.	First pay period in 2025

☑ Action	Deadline
☐ Ensure that any commissioned employees' tax amounts (YD, YQ and YE) are re-entered on the first pay of the new year based on new TD1X form information.	First pay period in 2025

January – February 2025

☑ Action	Deadline
----------	----------

- ☐ Review Dayforce's important dates and deadlines detailing when adjustments and y-runs must be received and processed, and when tax form initiation must occur. See *Important dates and deadlines*, page 35. **If you are unable to meet any deadline, please contact your Service Delivery Team** for advice on how to proceed.
- ☐ After processing and validating all required adjustments, initiate the production of your tax forms. See, *How to initiate the production of your tax forms with IVR*, page 47.
- ☐ **If you submitted adjustments to be processed for your tax forms after your last pay of 2024**, you are responsible for remitting to the appropriate agencies any source deductions (Tax, CPP/QPP, EI, QPIP, CSST, WCB, etc.) caused by the adjustments, by the specified deadline imposed by those agencies. Starting with the 2019 tax year, CRA and RQ began permitting eligible employers to make an additional adjustment remittance in January. Conditions apply. (CRA "[Payment on Filing](#)"/RQ "[Administrative Policy](#)").
- ☐ Along with your T4s/RL-1s, you will receive a new set of year-end balancing reports.

Note: These year-end balancing reports are the same as those received with your last pay of the year, **unless** you made any year-end adjustments between your last pay of 2024 and the processing of your tax forms. These changes are reflected in these reports.

Ensure that you have received:

- your new set of year-end balancing reports
- the correct number of tax forms

Verify that the information reported on your tax forms is correct. If there are any discrepancies, please contact your Service Delivery Team immediately.

☑ Action	Deadline
<input type="checkbox"/> After verifying that the T4s/RL-1s are correct, distribute them to your employees.	February 29
<p>Note: Failure to distribute tax forms to employees before this deadline may result in penalties (fines) being levied by CRA/Revenu Québec.</p>	
<p>For further information see <i>Submission of tax forms</i>, page 48.</p>	
<input type="checkbox"/> If you have employees in Newfoundland and Labrador and the Newfoundland and Labrador gross earnings for 2024 are \$1,300,000 or greater, you are responsible for submitting an Annual Declaration Return form, along with your T4 and/or T4A Summaries, to the Department of Finance. See <i>Newfoundland and Labrador Health and Post Secondary Education Tax (HAPSET)</i> , page 57.	
<input type="checkbox"/> If you have employees in Québec , you are responsible for submitting the RL Summaries (RLZ-1.S-V) to Revenu Québec. See <i>Electronic filing</i> , page 48.	February 29
<input type="checkbox"/> If you have employees in Québec , you are responsible for filing your CNT levy and WSDRF with Revenu Québec (preferably along with your RL-1 Summary).	February 29
<input type="checkbox"/> If you have employees working in provinces other than Québec and Nova Scotia , you are responsible for remitting your WCB premiums (if applicable) for 2024. Your provincial WCB should communicate to you the rates at which to calculate the premiums owing and your annual return filing obligations.	Please check with your WCB board for due dates

March 2025

☑ Action	Deadline
<input type="checkbox"/> If you have employees in Ontario , you are responsible for filing an annual Ontario EHT return, to reconcile the annual tax due against the instalments made. This is the employer's responsibility, even if Dayforce remits your EHT premiums on your behalf. See <i>Ontario Employer Health Tax (EHT)</i> , page 52.	March 15
<input type="checkbox"/> If you have employees in Québec , you are responsible for completing and filing your annual Québec CSST report to reconcile the annual premiums due against the instalments made in 2024.	March 15

☑ Action	Deadline
<input type="checkbox"/> If you have employees in Ontario , you are responsible for filing your Ontario WSIB reports and remittances (if applicable) for 2024. The WSIB should communicate to you the rates at which to calculate your premiums owing.	March 31
<input type="checkbox"/> If you have employees in Manitoba and the Manitoba gross earnings for 2024 are \$2,000,000 or greater, you are required to file an annual report that includes a copy of your information summaries (i.e. T4, T4A) requested from CRA. See <i>Manitoba Health and Post-Secondary Education Tax</i> , page 53.	March 31
<input type="checkbox"/> If you have employees in British Columbia , and the British Columbia remuneration is greater than \$1,000,000, you are responsible for remitting BC EHT and for completing and filing an annual return and final quarterly payment for 2024. See <i>British Columbia Employer Health Tax</i> , page 56.	March 31
<input type="checkbox"/> If you have employees in Newfoundland and Labrador, and your Newfoundland remuneration is greater than the \$2 M threshold, you are responsible for submitting an Annual Declaration Return form to the Department of Finance. See <i>Newfoundland and Labrador Health and Post Secondary Education Tax (HAPSET)</i> , page 57.	March 31 if applicable

Important holiday, bank, and direct deposit dates

Year-end is a process that requires much consideration to important dates and deadlines, especially around the holiday season, near the end of December and beginning of January. This section lists all of the important holiday dates, bank dates, and direct deposit dates that you should consider during the year-end season.

Processing the first pay of the new year

If you plan to submit your first pay of the new year (2025 cheque date) prior to December 14, 2024, please contact your Service Delivery Team in advance, to ensure the new 2025 CRA/Revenu Québec taxation tables are in place.

ACTION REQUIRED: Please contact your Service Delivery Team to determine if it is possible to process your 2025 payroll.

Important dates for employers with direct deposits (EFTs)

In November, review a December calendar to ensure your December and January payrolls are processed early enough to guarantee deposits are made on time. The following input schedule is recommended for releasing EFT (Electronic Funds Transfer) payments so that all employees receive payment on the due date.

Payment Date	Input to Dayforce	Stop Payment Deadline (Noon CST)
Friday, December 20	Tuesday, December 17	Thursday, December 19
Monday, December 23	Wednesday, December 18	Friday, December 20
Tuesday, December 24	Thursday, December 19	Monday, December 23
Friday, December 27	Friday, December 20	Tuesday, December 24
Monday, December 30	Monday, December 23	Friday, December 27
Tuesday, December 31	Tuesday, December 24	Monday, December 30
Thursday, January 2	Friday, December 27	Tuesday, December 31
Friday, January 3	Monday, December 30	Thursday, January 2

Any payrolls processed outside of these recommended guidelines are processed on a best-effort basis by the receiving banking institutions. Dayforce is unable to speed up the processing of deposits with the banks once the EFT information has been released to them. Due to bank closures, no EFT files are processed on Wednesday December 25, 2024, Thursday December 26, 2024, or Wednesday January 1, 2025.

2025 bank holidays

2025 Date	Holiday	Bank Holiday
Wednesday, January 1	New Year's Day (actual)	Canadian Bank and Payment system closure
Thursday, January 2	Day After New Year's Day (QC)	Bank for Quebec (Clothing Industry only)
Monday, February 17	Family Day (AB, BC, ON, NB, SK) Islander Day (PE) Louis Riel Day (MB) Nova Scotia Heritage Day (NS)	Bank for multiple provinces
Friday, February 21	Yukon Heritage Day (YT)	Bank for YT only
Friday, April 18	Good Friday	Canadian Bank and Payment system closure
Monday, May 19	National Patriots Day (QC) Victoria Day	Canadian Bank and Payment system closure
Saturday, June 21	National Indigenous People Day (NT, YK)	Bank for NT and Yukon only
Monday, June 23	June Day (NL observed)	Bank for NL only

2025 bank holidays

2025 Date	Holiday	Bank Holiday
Tuesday, June 24	National Day (QC)	Bank for Quebec only
Tuesday, July 1	Canada Day	Bank, Canadian Bank and Payment system closure
Wednesday, July 9	Nunavut Day	Bank for NU only
Monday, August 4	British Columbia Day (BC) Civic Holiday (NT, ON, SK) Terry Fox Day (MB) Heritage Day (AB) New Brunswick Day (NB)	Dayforce Trust (Canada) closure
Monday, August 18	Discovery Day (YT)	Bank for YT only
Monday, September 1	Labour Day	Canadian Bank and Payment system closure
Tuesday, September 30	National Day for Truth and Reconciliation (actual)	Bank, BC, PEI, NWT, NU, MB and YT Canadian Bank and Payment system closure
Monday, October 13	Thanksgiving Day	Canadian Bank and Payment system closure
Tuesday, November 11	Remembrance Day	Canadian Bank and Payment system closure
Thursday, December 25	Christmas	Canadian Bank and Payment system closure
Friday, December 26	Boxing Day	Canadian Bank and Payment system closure
Thursday, January 1, 2026	New Year's Day (actual)	Canadian Bank and Payment system closure
Friday, January 2, 2026	Day After New Year's Day (QC)	Bank for Quebec (Clothing Industry only)

Federally regulated banking institutions are obligated under federal law to observe the statutory holidays stipulated in the **Canada Labour Code**. The observance of provincially legislated holidays is a discretionary business decision made by each bank.

It is recommended that you contact your banking institution directly regarding their holiday schedule or regarding any days of interest.

Year-end reports

Because the year-end process can be very involved, it is important to start looking at, and adjusting, your employee information as early as possible. Where possible, you should make your adjustments in November, to ensure that all information is accurate and complete for your final pay submission at the end of the year.

With your first payroll with a cheque date in November, you will receive your year-end preliminary reports package, which includes the following reports:

- Tax Returns Exception Report
- General Client Information
- Earnings and Deduction/Benefit Matrix Reports
- Name, Address and S.I.N. Report
- CPP/QPP Deficiency Report
- EI Premium Deficiency Report
- QPIP Premium Deficiency Report
- T4/T4A Employee Totals Report
- T4/T4A Recap Reports
- Relevé 1 and 2 Employee Totals Report (if applicable)
- Relevé 1 and 2 Recap Report (if applicable)

Follow the instructions accompanying each report to ensure that the information it contains is correct as of the Pay Period Ending date shown in the upper right-hand corner.

With your last pay of the year, you receive the same set of reports, with the following differences:

- The Name, Address and S.I.N. Report is not included
- The WCB Assessable Earnings Report is included
- For Ontario employers, the Ontario EHT (Employer Health Tax) Report is included

Note: To commence your review earlier in the year, the above package of reports can be requested off cycle throughout the year. Please contact your Service Delivery Team to request a package. (Additional service fees apply.)

Reviewing important information required by Dayforce

It is necessary to have the following information on file, where applicable. Review the relevant reports to ensure that all information listed below appears correctly. If any item(s) are either missing or incorrect, please advise Dayforce as soon as possible.

Required employee information

The following information is required for each employee, including those in a terminated status:

- Current address, including province/territory and postal code (see Canada Post province and territory symbols, page 61)
- Social Insurance Number (S.I.N.)

Note: An invalid or missing Social Insurance Number may result in a penalty imposed by CRA or Revenu Québec .

Required employer information

- Business Numbers (BNs) - Confirm these numbers are correct by comparing them to your CRA PD7A form. PD7As are available online through CRA's My Business Account.

Note: If your BN number(s) are missing or invalid, tax forms are not produced.

- Province of Québec Remittance Identification Number - Confirm this number is correct by comparing it to your Revenu Québec form TPZ 1015.R.14.#-V.
- EI reduced rates, with associated BNs, for 2025
- Remittance Frequency changes
- Manitoba Remittance Number for Health and Post Secondary Education Tax
- Ontario Employer Health Tax Number
- Newfoundland and Labrador Health and Post Secondary Education Tax Number
- Northwest Territories/Nunavut Payroll Tax Number
- Nova Scotia WCB account number and rate
- WCB/WSIB/CSST rate changes
- Deferred Profit Sharing Plan Number(s)
- Registered Pension Plan Number(s) - must be 7 numeric digits. Confirm the accuracy of these numbers by comparing them to your policy plans.
- Total Worldwide Wages from previous year for QHSF

Calculating pension adjustments (PAs)

Refer to CRA's **Pension Adjustment Guide** (Publication No. T4084) for a detailed explanation of the PA calculation for each different type of plan (i.e., money purchase, deferred profit sharing, defined benefit). The maximum reportable pension adjustments for 2024 are:

- \$32,490 for Money Purchase plans
- \$16,245 for Deferred Profit Sharing plans
- \$31,890 for Defined Benefit plan [(\$3610 x 9) - \$600]

Calculating pension adjustments (PAs)

Note: If you have pension adjustments to report and an actuary is providing the details for you, ensure they are aware that you must have the information prior to processing your tax forms - especially if you wish to have your tax forms electronically filed by Dayforce. Refer to the Deduction/Benefit Matrix included with your year-end report package to confirm that a code exists to report the PA amounts.

Processing your final pay of the year

Signaling your final pay run of the year

An essential part of the year-end process is identifying which payroll run is the last for the tax year. There are two opportunities to enter this signal, the last payroll processed in the current year, or the first payroll processed in the new year. This signal performs four very important tasks:

1. Resets year-to-date totals to zero for the first pay of the new year (January 2025)
2. Takes a copy or snapshot of the 2024 year-to-date totals to be used for 2024 tax form production
3. Produces a new and complete set of 2024 year-end balancing reports for verification
4. Causes the statutory deduction calculations for 2025 to apply to the first run of the new year (with a cheque date of 2025).

Coding your final pay run of the year

Select one of the following year-end codes to indicate that the payroll you are transmitting is the final payroll of the tax year (see the appropriate section of this guide for detailed instructions on where and how to enter the code according to your input method or product type):

Note: It is very important that any year-end signal (A, B, C or M, N, O) is transmitted and processed ONLY on the pay(s) for which you intend to reset the year-to-dates to zero (this can be on a regular run and/or an extra run).

Code	Description
Code A:	Resets all YTD earnings, deductions, company portions, taxable benefits and any prepaid CPP/QPP/EI/QPIP to zero before the first pay of the new year is processed.
Code B:	Same as Code A except that the CE YTD column is not reset to zero. An example would be if you were using the CE column for loan deductions or for tax-paid vacation pay.
Code C:	Same as Code A except the CE and CR YTDs are not reset to zero.

Note: Vacation pay (VA), Holiday pay (WA), Sick time (SE) accumulators, and garnishees are not zeroed out, nor are any target values on file and/or commencement dates associated with targets. If you have any deduction/benefit codes that should **NOT** be reset to zero in the new year, please contact your Service Delivery Team for assistance.

If the year-end signal is missed on the final pay of the year, you still have the ability to clear out the YTD totals on the first run of the new year, by entering one of the following codes in the appropriate field:

Code	Description
Code M:	Same as Code A, however zeroing is done prior to the processing of the current payroll run.
Code N:	Same as Code B, however zeroing is done prior to the processing of the current payroll run.
Code O:	Same as Code C, however zeroing is done prior to the processing of the current payroll run.

Note: For Dayforce Insync users remember to remove the M, N or O before the next payroll run to avoid clearing the Year-to-Date totals again.

Dating your final pay of the year

Legislation requires that earnings belong to the year in which they are paid. This is determined by the cheque date. For example, if a pay period ends on December 31, 2024, and is paid on January 4, 2025, this is considered earnings for 2025, and therefore to be included on the 2025 tax form.

What is a masterfile and what does it have to do with year-end?

No matter what type of payroll you have, Dayforce maintains a masterfile for your payroll containing all the basic information required for your payroll processing, including employee names, addresses and S.I.N. This information is printed on your T4s/RL-1s. Your masterfile can be updated at any time, although it is particularly important to ensure that any changes, which apply to your 2024 payroll, are input on or before your last pay of the year.

Changes on or before the final pay of the year

To have the correct information appear on the T4s/RL-1s:

What is a masterfile and what does it have to do with year-end?

- When you receive your preliminary year-end reports package, verify the information in the reports and submit any changes with your payroll on or before the final pay of the year.
- Name, address, and S.I.N. changes should be updated through your regular data entry. Remember to use the official 2-letter province/territory symbols – see *Canada Post province and territory symbols*, page 61. This ensures that your masterfile information is kept current with the masterfile information on Dayforce's system.

Note: If this is not done prior to or with your final pay of the year, you need to enter this information as a year-end adjustment AND then re-enter it with the first regular run of the new year.

Changes after the final pay of the year

If you have additional 2024 changes after the final pay of the year has been processed, a year-end adjustment run (y-run) must be submitted for processing in January or February to update your tax forms. See *Year-end adjustments*, page 35.

If you have additional 2024 changes after the final pay of the year has been processed and it is still **before December 31**, an extra run (E-run) may be initiated with a cheque date no later than December 31.

Should you wish to exercise this option (E-Run):

- The year-end signal used with your final run must be repeated to ensure the information is included in the correct taxation year.
- The payment date must be December 31 to ensure that statutory deductions are allocated to the correct taxation year with CRA/Revenu Québec.
- EFT payments must be suppressed if processed after December 24.
- Follow the guidelines for processing an E-run.

Note: If you have any questions regarding processing an E-run to perform these adjustments, please contact your Service Delivery Team.

Dayforce Insync at year-end

If you are using Dayforce's Insync HR Attendance Module, please contact your Service Delivery Team for further details on Year-End Processes.

Setting up your final payroll run of 2024

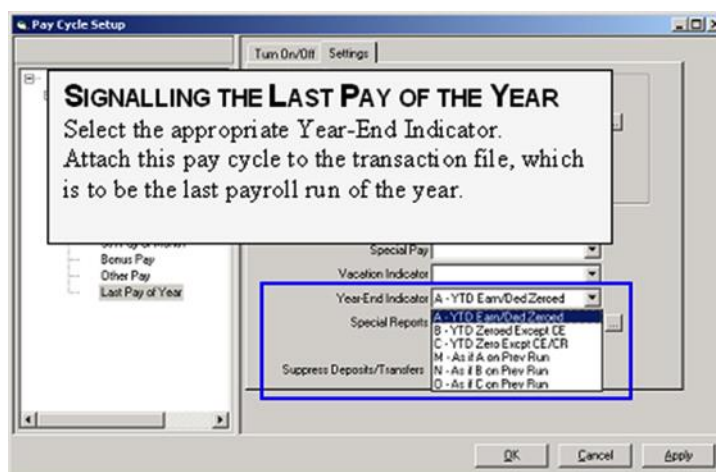

In addition to following the same processing steps you would for any other run of the year, you must also complete some additional steps to close off your payroll for the year.

To signal which pay run is the final one of the year:

1. Use a special Pay Cycle, set up in the same way as your regular Pay Cycles (see "Pay Cycle Setup" in the online Help). From the list of available Pay Cycles in the **Pay Cycle Setup** window, select **Last Pay of Year**.

This Pay Cycle contains the same codes and settings normally used for the last pay of the month, with the addition of a code in the **Year-End Indicator** field – see *Processing your final pay of the year*, page 23.

2. Confirm that the additional codes and settings are set up within this new pay cycle to avoid errors in processing your final run of the year.

Note: When setting up pay period 001, ensure that the send date is in the New Year.

Processing a year-end

Dayforce's Insync year-end processing function automatically performs the following:

- Creates a "snapshot" of employee data as of the last pay of the selected year, used for producing T4s/RL-1s
- Transfers any employees terminated during the year to payroll 9999

Note: It is important to follow the correct order of operations for running the year-end process. Failure to do so results in errors. If the following order of operations is not carried out, terminated employees will not have a location in the final register; and therefore will not be available to view on screen.

Before you begin the year-end process

1. Ensure all other users are logged out of Insync.
2. Ensure you are running the process **after** the last pay of the year has been processed and **prior to** sending pay period 001 for processing.
3. Process any additional Extra runs that may be required for 2024.
4. You **must** initiate the receiving of your payroll register from the last pay of the year (or extra run) and verify everything is correct. (From the main menu, select **Comm** → **Receive**.)
5. Run any canned reports from the Insync Library that you may need. Once the process is run, employees terminated in 2024 are no longer available.

To process a Year-End:

1. Select **Tools** → **Year-End** → **Process**.

The **Create Year-end Record** window opens.

Create Year End Record

Check the following items before continuing?

- Have you created Pay Period 1?
- Is there a current backup of the database?
- Have all pays been processed (27, 53)?

Note: No additional current year pays can be processed. Only Year end adjustments may be processed after this point.

T4 Year

- 4000 - INTERNATIONAL MANUFACTURING : XXXX
- 4001 - International Mfg Executive : XXXX

2. Confirm that the following three requirements have been completed by selecting the three check boxes:
 - Pay Period 1 for the new year has been created (with Send Date in the new year)
 - All pays for the current year have been transmitted and processed
 - You have a backup of the database immediately prior to performing this function

Note: Dayforce does not maintain a backup of your database.

3. In the **T4 Year** field, select the year for which you are processing the year-end.
4. In the list box, select the check box(es) for the account(s) for which to process the year-end. The last tax year the process completed is displayed next to the payroll number.

Note: If the number of employees is high, this process can take some time. It is recommended that if the employee count is over 1,000, the year-end process should be run for only one account at a time.

5. Click **OK**.

Terminated employees are not deleted from your database when you process a year-end. They are automatically moved to payroll 9999 and are accessible for a y-run, if necessary.

Points to note

- A year-end can be processed only once, per account, per tax year.
- This process must be performed for each account number in your database.
- Pay Period 1 for the new year cannot be made current until the year-end process has run. It can be accessed for data entry but is considered future dated until the year-end is processed.
- If you are using Dayforce's Insync **Attendance** module, you may need to run a recalculation for your Attendance Plan(s) – please contact your Service Delivery Team for further information.
- If the year-end process is completed prior to downloading the register, you have two options:
 - Use paper register for terminated employee information or
 - Reload a backup of the database following last pay of the year, download the register, and redo the year-end process.

Year-end adjustment runs (Y-runs)

To make changes to employee information after the year-end process has been run and the first pay of the new year has been processed, you must perform a year-end adjustment run (y-run). Running the year-end process automatically creates a Year-End Pay (transaction file) for the year-end processed.

Note: Multiple adjustment runs can be processed. However, charges do apply to each adjustment run. Where possible, it is recommended that you gather all adjustments and process them at one time. To perform a Year-End Adjustment Run (Y-Run):

1. Click **Tools → Year-End → Open**.

The Year-End record, which can be edited, opens. When you are in Year-End mode, only specific windows are accessible for year-end adjustments (inaccessible icons are greyed out). Click on any employee in the tree list to access these screens:

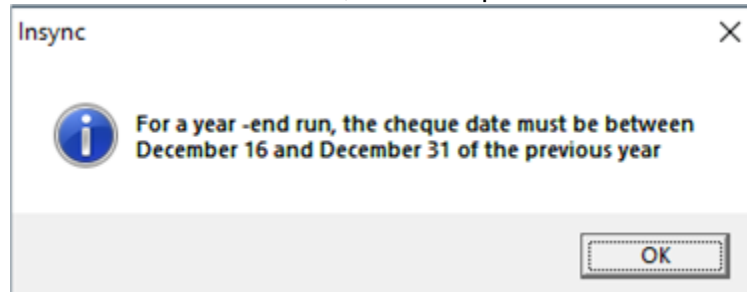

- Employee Information screen
- Position/Comp/Equity screen
- One-Time Data Entry screen – be sure to use either Reversal or Manual mode
- Custom One-Time Data Entry screen
- Advanced Data Entry screen
- Permanent screen – screen 4

2. IMPORTANT - Enter all year-end adjustments according to the instructions in *Year-end adjustments*, page 35.
3. Create a separate data entry batch for year-end adjustment.
4. Select an employee name to make the window icons accessible.
5. When adjustments are complete, balance your totals, verify your data and then transmit the file to Dayforce as usual. (Please keep in mind that you should transmit only one transmission, per payroll, per Dayforce production run).

Points to note

- If necessary, modify your filter options so that all employees appear by selecting **Setup → User Preferences**.
- Terminated employees added after the year-end processing has been performed will remain on your database. If required, use the **Custom Delete** function to delete these employees once your tax forms have been processed.
- You cannot create a second y-run until the first y-run has been sent and processed.
- If multiple y-runs are needed, repeat the same cheque date, pay period end date, pay cycle, and pay period number as your last pay of the year (the cheque date **MUST** be a 2024 date or the y-run will reject). However, remember to identify multiple y-runs with different descriptions to make them more identifiable (e.g., 'y-run #1', 'y-run #2') and choose a new Send date (after the last y-run send date). Choose a date after December 16, 2024 but prior to December 31, 2024.

- It is not necessary to select any pay cycle deductions, as these sections are ignored.
- Process as many y-runs as required before initiating the production of your Tax Forms. If subsequent y-runs are required, ensure that you are using a new file each time. **Do not** send previously processed y-run files.
- If multiple y-runs are required, adjustments keyed should reflect the additional change required since the last y-run was processed, with the exception of special codes Z31-Z50. See Coding the 'Other Information' area of the T4, page 42.
- Identify the order of the processed y-runs based on the run date and run number printed in the lower right-hand corner of your reports.

Creating additional Y-run transaction files

Additional y-run transaction files can only be created after the previous y-run has been sent for processing.

To create additional Y-Run Transaction Files:

1. Open the Year-end database: **Tools** → **Year-end** → **Open**.

Note: When entering this window to make adjustments for additional y-runs, Dayforce Insync defaults to the previous year-end run already sent. Another unique transaction file must be created.

2. Click the **New Pay** icon  to open the **New Pay** window.

Note: The following screen shot is just a SAMPLE. **Please do not use these dates or detail for actual input.**

Note: Send dates must be in the past, but not the same as any previously used Send Dates. A suggestion is to use the Send date of the original y-run plus one day. The cheque date **MUST** be a 2024 date or the y-run will reject. Other Date fields can be left as defaults.

3. In the **Run Type** field, select **Year-End Run**.
The Pay Cycle defaults to **Blank Pay Cycle**.
4. Click **OK** to save.
5. Exit Dayforce Insync and restart.
6. Open the Year-end database: **Tools** → **Year-end** → **Open**.

To do this, you must select an employee from the tree view and have your batch already created.

7. Proceed to key your new adjustments with values to increase or decrease the year-to-dates from the last y-run processed.

To remove a year-end run that was created but unused:

Note: Use **CAUTION** to ensure you remove the correct file

1. Go to **File** → **New Pay** → **View pay** and select the sent flag.
2. Restart Insync. The transaction file will be removed.

Setting up employer defaults (tax exemptions)

Use the **Setup Employer Defaults - New Employee** window to define defaults specific to your payroll. If the amount for the basic Federal Tax Exemption or Provincial Tax Exemption has changed for the new year, change it here, so that any new employees keyed after this change display the correct amount.

To set up employer Defaults:

1. Select **Setup** → **Defaults**.
2. In the tree view, select the **Employer**.
3. Select **New Employee**.

The first pay of the new year

Terminations

Terminating employees on the first pay of the new year requires special status codes. The codes are dependant on whether or not you intend to keep the employee on the company masterfile.

To retain Dayforce masterfile information for employees terminating in the first pay of 2025, Status codes **U**, **R** or **F** should be used for those employees.

Status code **T** should **NOT** be used at this time, as it immediately deletes the employee information from the Dayforce 2025 masterfile, which may be required at next year-end for T4/RL-1 reporting. Any adjustments keyed on the first run of the new year to a status **T** employee are ignored and dropped, and therefore do not exist if required at year-end for T4/RL-1 reporting.

Note: "ROE only" runs cannot be processed prior to pay period 1 being transmitted and processed. An extra run must be initiated to prepare your masterfile for the new year. Please contact your Service Delivery Team for further details.

Electronic filing

Dayforce files all tax forms electronically. For Dayforce's filing deadlines, see *Important dates and deadlines*, page 35.

Failure to meet Dayforce's filing deadline could result in you, the employer, being responsible for filing your company's tax information to CRA and Revenu Québec electronically using an alternate method.

Note: Failure to file electronically where required by CRA and Revenu Québec may result in penalties/fines being levied.

For more information on filing tax forms electronically, go to the CRA website at <https://www.canada.ca/en/revenue-agency/services/e-services/filing-information-returns-electronically-t4-t5-other-types-returns-overview.html>

Year-end adjustments

It is recommended that all changes required to be included in the T4s/RLs are updated to your masterfile on or before the final run of the year. However, this is not always possible, as some information may not be available to you until early in the new year.

Starting with the 2019 tax year, CRA and RQ began permitting eligible employers to make an additional adjustment remittance in January. Conditions apply. (CRA "[Payment on Filing](#)"/RQ "[Administrative Policy](#)").

It is your responsibility to ensure that all year-end adjustments are properly submitted using the correct system codes for the input method that you use. In order to ensure that these corrections amend your 2024 year-to-dates, and not 2025, a special processing run must be created. This is called a year-end adjustment run or y-run.

Note: Additional charges apply for this service.

Important dates and deadlines

It is important to remember that with the year-end process and legislative requirements (for both you, the employer, and Dayforce), there are a number of dates and deadlines to keep in mind. Review the following information and keep it easily available throughout the tax season.

Electronic filing

Activity	Deadline
Y-run adjustments to be keyed by Dayforce <i>Additional service charges may apply. Y-run adjustments can only be done <u>after the first pay of the new year has processed.</u></i>	February 14, 2025 Ensure you provide Dayforce with notification of these adjustments and allow for a minimum of 7 business days for Dayforce to enter data.
Y-run submission	February 14, 2025
Tax form initiation	February 21, 2025

Missed tax form processing deadline

Dayforce's tax form processing deadline is February 21, 2025. To avoid penalties for late filing, it is recommended that you process your tax forms prior to Dayforce's deadline of February 21, 2025, and resolve any issues with amended tax forms closely thereafter.

Important: Please note, there will be no penalties on AMENDED forms that modify forms that were included in your **original** electronic file to CRA/RQ. Any **NEW** forms created after the fact may be considered late by the agencies and you may still be subject to penalties. If you discover that you have missed a form after your electronic file has been submitted, please contact the agency and advise them immediately.

The issuance of penalties regarding tax filing is at the discretion of CRA/RQ, and there may be situations where an assessment is issued (by CRA/RQ) due to circumstances not related to tax form activities handled by Dayforce.

For more information on filing electronically directly to CRA, please visit their site at <https://www.canada.ca/en/revenue-agency/services/e-services/filing-information-returns-electronically-t4-t5-other-types-returns-overview.html>

Processing year-end adjustment runs (Y-runs)

If you have already processed the first pay of the new year, year-end adjustment runs enable you to submit adjustments that affect your employees' 2024 year-to-dates and tax forms. Dayforce's system then processes this information and sends back to you a complete set of updated payroll and year-end reports. Other reports may be available; simply make your request known to your Service Delivery Team - they will be able to tell you the cost and timeframe involved in getting them for you.

Note: Multiple adjustment runs can be processed. However, charges do apply to each adjustment run. Where possible, it is recommended that you gather all adjustments and process them at one time.

Mandatory Y-run information

- If you have adjustments to process, submit your year-end adjustment run **after** you have processed the **first** payroll of the new year.

Note: If you are a semi-monthly or monthly customer, and you are required to process a y-run prior to processing a 2025 payroll, please contact your Service Delivery Team for assistance.

- The year-end adjustment transaction must have the same cheque date, pay period ending date, and pay period number that was used on the last pay of 2024. If the cheque date is not a 2024 date, the y-run will reject.
- Year-end adjustment runs cannot be submitted with a regular payroll run. Keep in mind that you should transmit only one transmission, per payroll, per Dayforce production run.

Coding your Y-run

- Adjustments submitted are not replacement entries. Enter changes to increase or decrease the existing YTD total to the desired amount.
- Entries should be made in **Reversal** or **Manual** mode. Entries cannot be made in **2nd cheque** mode.
- Adjustments done in **Reversal** or **Manual** mode do not have to balance since payments are not generated (as would normally occur with out-of-balance manuals/reversals). If you leave them out of balance, an offsetting Excess Deduction (XD) code is generated. These XD values do not carry forward into your current year's masterfile. Should you wish to act on them in 2024, additional coding in 2024 is required.
- All entries must be made using **one-time override codes** for deductions and earnings:

Deductions AX-HX, 1X-8X, 10X-89X, AZ-IZ

T (Federal and Provincial Tax), TQ (Québec, NWT and Nunavut Tax)

P (CPP/QPP), U (EI), K (QPIP)

Tax, CPP/QPP, EI, and QPIP must be entered as overrides. They are not automatically calculated.

Benefits CY-HY, 1Y-8Y, 10Y-89Y

Earnings SO, OE, PE, XE, VE, WE, O1-O9, O10-O99, X1-X5

Hours RT(or R), OT(or 1), DT(or 2), XT(or X), YT(or Y), L, W, T, Q, Codes 3-9 (hours)

X1-X5, O1-O9, or O10-O99 if used as hours codes

- Permanent codes are not paid - e.g. SA, OP, Q1-Q9, Q10-Q99, Y1-Y5
- Any signalled deductions are ignored. These amounts, if they do apply, must be entered as one-time override amounts - e.g., AX 12.00, HX 8.50, CX 15.00, CY 15.00.

T4A coding requirements

- Adjustments to move existing federal tax from a T4 to a T4A can be done by coding T negative and TS positive. Please contact your Service Delivery Team if you are trying to adjust ET = A or ET = B employees.
- Adjustments to post new federal tax onto a T4A can be done by coding TS positive. Please contact your Service Delivery Team if you are trying to adjust ET = A or ET = B employees.

Characteristics and features of year-end adjustment runs

- The Payroll Funds Summary and the Executive Summary identify the output as belonging to a year-end adjustment run.
- T4s/RL-1s are not produced when a y-run is processed.
- T4s/RL-1s do not automatically follow a y-run, these must still be requested via IVR
- All year-end adjustments can be keyed by PC customers with four **exceptions**:
 1. Matrix updates (earnings and deduction code changes)
 2. Moving earnings between Business Numbers
 3. Box 29 – Employment Codes
 4. Moving partial year-to-dates between provinces.

These types of adjustments must be submitted to Dayforce via the **Year-End Adjustment Spreadsheet**, which can be found on the Dayforce web site (www.Dayforce.com/ca → **Resources** → **Help Centre** → **Support for Employers** → **Year-end guides forms and documents**). Please see the **SAMPLE Adjustment Spreadsheet** for examples of year-end adjustment entries.

If this affects you, clear communication and sufficient lead time (7 business days) is required for keying prior to the submission of your y-run.

- Y-run adjustments made have no effect on your EI History/ROEs. If corrections are required to amend your EI History/ROEs, then EI/ROE entries must be made to your 2025 input. Please contact your Service Delivery Team if you need assistance.
- Y-run adjustments made have no effect on QPIP history. If corrections are required to amend your QPIP history, then QPIP entries must be made to your 2025 input. Please contact your Service Delivery Team if you need assistance.
- All entries are processed against your year-end masterfile and have *no effect* on your 2025 masterfile or totals. (E.g., vacation and sick leave adjustments posted on a y-run **do not** affect your current accruals. You must adjust your accrual in a current pay run.)
- More than one year-end adjustment run can be processed. Identify the order of the processed y-runs based on the run date and run number printed on the lower right-hand side of your reports.
- Only one y-run can be transmitted per day per payroll number.
- If multiple y-runs are required, adjustments keyed should reflect the additional change required since the last y-run was processed, with the exception of special codes Z31-Z50. See *Coding the 'Other Information' area of the T4*, page 42.
- No employee payments are created. All entries are forced to balance to zero net pay.
- **IMPORTANT** - No remittances are made for adjustments that affect any Government agencies. Any amounts owing requires you, the employer, to make the payment. No deduction cheques for third parties are produced.
- All entries for Terminated, Inactive and Leave employees are processed without having to change their status to A (Active).

- Name and Address changes can be made. To incorporate the changes into your 2025 masterfile, ensure that the data is also included in a 2025 payroll transmission to Dayforce.
- New employees can be set up on y-runs for the purpose of producing a 2024 tax form. However, new employees set up on 2024 y-runs will not exist in the 2025 Dayforce masterfile. If the employee is to be paid in 2025, re-enter the new employee information on your next regular payroll run.

Making adjustments when earnings are stored by province

If you have employees who worked in different provinces during the year, their earnings have been stored in the Dayforce system according to their province code (PC) at the time of processing. To make a correction to your employee's YTDs stored by province, the method of correction is dependent on whether you are moving part of the earnings and deductions to an alternate province or if you are moving all of the YTDs.

Moving all earnings and deductions

Adjustments to move *all* earnings and deductions between provinces can be processed with a y-run by submitting a unique coding combination. If the employee is presently in the incorrect province code and all earnings and deductions are to be transferred to the correct province, two entries are required:

- PC and the correct province
- PR and the incorrect province

Note: PC entries must precede PR entries

For example: If an employee was set up in Ontario (PC 5) and should have been set up in Manitoba (PC 6), enter PC 6 then PR 5 to move all of the accumulated earnings and deductions from Ontario to the correct home province of Manitoba.

Important note for Dayforce Insync customers: Some Dayforce Insync versions do not currently support the code PC. Therefore, if you have these types of adjustments to make, you must submit them to Dayforce for processing **via the Year-End Adjustment Spreadsheet**. For more information, see *Submitting year-end adjustments (spreadsheet and form entries)*, page 40.

Moving part of the earnings and deductions

Adjustments to move *part of* the earnings and deductions between provinces can be processed with a y-run. However, they **cannot** be keyed by the customer. They must be entered on the Year-End Adjustment Spreadsheet. For more information, see *Submitting year-end adjustments (spreadsheet and form entries)*, page 40. Advise your Service

Delivery Team if you are submitting this type of adjustment so that sufficient time is available to have them keyed.

Employees who worked in different provinces or under different BNs during the year are to be issued separate tax forms.

Submitting year-end adjustments (spreadsheet and form entries)

There are four types of adjustments that Dayforce customers **cannot** key:

1. Matrix updates (earnings and deduction code changes)
2. Moving earnings between Business Numbers
3. Box 29 – Employment Codes (Can be entered in Advanced Data Entry screen in Insync.)
4. Moving partial year-to-dates between provinces.

These types of adjustments must be submitted to Dayforce via the **Year-End Adjustment Spreadsheet**, which can be found on the Dayforce website (www.Dayforce.com/ca → **Resources** → **Help Centre** → **Support for Employers** → **Year-end guides forms and documents**). Please see the **SAMPLE Adjustment Spreadsheet** for examples of year-end adjustment entries.

It is essential for balancing purposes that you provide separate totals for each code to which you are making adjustments. These adjustment amounts are edited and balanced to the totals that you have submitted. Dayforce will not be able to balance your adjustments if totals are not submitted.

Note: If you are a PC input customer, advise your Service Delivery Team that you are submitting this type of adjustment so that sufficient time can be scheduled to have the keying completed prior to the transmission of your y- run.

Completing the year-end adjustment spreadsheet

These instructions and codes are to assist you in recording year-to-date adjustments for the purpose of T4s/RL-1s. You need only indicate adjustments for items that affect T4s/RL-1s. All amounts (other than the special **Z31-Z50** codes for the Other Information area) add to or subtract from the existing year-to-date amounts shown on your year-end reports. For negative values, enter a leading minus sign.

1. Adjusting YTD Gross, statutory deductions and Québec provincial deductions.

Indicate the code to be adjusted as well as the amount. Total all columns at the bottom of the form.

Description	Standard Codes	If EU = P or	If EU = 2
Gross	G	GP	G2
Income Tax	T	TP	T2
EI	U	UP	U2
QPIP	K	KP	K2
CPP	P	PP	P2
CPP2	P02	PP2	P22
QPP	M		
QPP2	M2		
QuébecTax	L		

The codes in the columns **If EU = P** and **If EU = 2** only distribute the YTD values, they do not add to existing amounts. Examples of how to make YTD adjustments between 2 BNs can be found in the **SAMPLE Adjustment Spreadsheet**, examples 5 – 7, located on (**Resources → Help Centre → Support for Employers → Year-end guides forms and documents**).

TS Amounts shown in the tax field of the T4A will subtract the amount from T4 tax. If the amount is not in the T4 tax, add a corresponding **T** amount.

RS Amounts shown in the tax field of the RL-2 will subtract the amount from RL-1 tax. If the amount is not in the RL-1 tax, add a corresponding **L** amount.

2. Deductions and Benefits

Refer to your Deduction/Benefit Matrix which identifies the codes, their descriptions and the tax form box(es) to which the year-to-date amount is routed. Through coordination with your Service Delivery Team, codes not currently in use on your payroll can be used to record your taxable benefits, Pension Adjustment amounts, and any new items required for T4/RL-1 purposes.

Code	Column	Employer Side
A	Column A	N/A
B	Column B	N/A
CE-HE	Columns CE/CR to HE/HR	CR-HR
1E-8E	Columns 1E/1R to 8E/8R	1R-8R
10E-89E	Columns 10E/10R to 89E/89R	10R-89R
AZ-IZ	Columns AF-IF	N/A

3. Earnings

The following codes distribute earnings only and **do not** affect gross pay totals. If gross pay is to be adjusted as well, code equal amounts as G (Gross). Refer to your

Earnings Matrix, which shows the codes, descriptions and the tax form box(es) to which the year-to-date amount is routed.

OE	Other Earnings	VE	Vacation Pay Paid
PE	Premium Earnings	WE	Holiday Pay Paid
XE	Extra Earnings	O1-O9	Additional Other Earnings Codes (alpha O)
OT	Overtime Dollars	O10-O99	Additional Expanded Earnings Codes (alpha O)
X1-X5	Add. Extra Earnings	DT	Double Time Earnings

Through co-ordination with your Service Delivery Team, codes not currently in place can be set up to route specific amounts to the appropriate boxes on the tax forms.

4. Reallocation of earnings and deductions between provinces

Only enter the province code if this employee has moved from one province to another during the calendar year, and the adjustment applies to the *previous* province. Any adjustments with a province code in Column 79, affects the employee's totals in their current province. These adjustments only distribute the YTD values - they do not add to the employee's totals. Examples of such adjustments can be found in the **SAMPLE Adjustment Spreadsheet**, example 4, located on (www.Dayforce.com/ca → Resources → Help Centre → Support for Employers → Year-end guides forms and documents).

5. Special codes for Other Information area of the T4

The following Dayforce system codes in *Coding the 'Other Information' area of the T4*, page 42 and respective amounts allow for the correct reporting of the CRA codes in this area.

Note: These codes **replace** any previous values that may have been entered.

Coding the 'Other Information' area of the T4

The "Other Information" area at the bottom of the T4 slip has boxes for you to enter codes and amounts that relate to employment commissions, taxable allowances and benefits, deductible amounts, and other entries if they apply. The boxes are not pre-numbered as in the top part of the slip.

The *CRA Codes* table on page 43 lists all the CRA codes, which can be listed in the "Other Information" area of the T4, along with the associated Dayforce system codes.

In the column **Dayforce Code**, if the word "Permanent" appears, it means it is possible to have a permanent option in your masterfile that automatically records the YTD values of that payroll code on the T4 slip with the appropriate CRA code. Refer to your year-end balancing reports to identify the payroll code that has been set up for this purpose. If you have to make year-end adjustments, use the payroll code that is specific to your payroll.

If there is not a permanent code set up on your masterfile and you need to report these amounts, advise your Service Delivery Team that you require a code to do so.

Remember that you must enter dollar values as well, as they will not have accumulated throughout the year.

In the **Dayforce Code** column, if a ‘Z’ code is listed, you should use this 3-digit Z code along with a value to report the amount in the “**Other Information**” area of the T4. In most cases, these amounts are part of a value already appearing in another box on the T4, and their amounts cannot be determined until year-end.

Special comments:

- Dayforce Z codes are defined as 9-digit alpha/numeric codes.
- Most of these Z codes (i.e. Z39 Stock Options Deduction) **are processed only on y-runs**. They cannot be processed throughout the year on regular pay runs.
- Only Z39 includes custom programming to allow amounts of over a million dollars (i.e. Stock Options) to be entered **only on Y-runs** in the Advanced Data Entry screen.
- Insync's Edit will automatically modify the large Z39 value to the applicable values necessary for processing.
- All Z codes **replace**, they do not add together. If an employee has multiple entries made to the same Z code, the system accepts the *last* entry only (regular payroll codes add to year-to-date values)

For further information, refer to CRA’s **Employers’ Guide - Payroll Deductions and Remittances**([T4001](#)).

The following table lists all the CRA codes, which can be listed in the **Other Information** area of the T4, along with the associated Dayforce system codes.

CRA codes

Description	CRA Code	T4 Box	Action Required	Dayforce Code
Board and lodging	Code 30	Box 14	Enter amount as required	Permanent
Special work site	Code 31	None	Enter amount as required	Z31
Travel in a prescribed zone	Code 32	Box 14	Enter amount as required	Permanent
Medical travel assistance	Code 33	None	Enter the portion of Code 32 that applies	Z33
Personal use of employer’s automobile or motor vehicle	Code 34	Box 14	Enter amount as required	Permanent
Interest-free and low-interest loans	Code 36	Box 14	Enter amount as required	Permanent

Completing the year-end adjustment spreadsheet

Description	CRA Code	T4 Box	Action Required	Dayforce Code
Security options benefits	Code 38	Box 14	Enter benefit amount (from before June 25, 2024)	Permanent
Security options deduction - 110(1)(d)	Code 39	None	Deduction available may be limited to qualified securities and subject to a CRA calculation. Enter deduction amount (from before June 25, 2024)	Z39 or Permanent
Other taxable allowances and benefits	Code 40	Box 14	Enter amount as required	Permanent
Security options deduction - 110(1)(d.1)	Code 41	None	Enter benefit amount (from before June 25, 2024)	Z41
Employment Commissions	Code 42	Box 14	Enter amount as required	Permanent
Canadian Armed Forces personnel and police deduction	Code 43	Box 14	Enter amount as required	Permanent
Eligible retiring allowances	Code 66	None	Enter amount as required	Permanent
Non-eligible retiring allowances	Code 67	None	Enter amount as required	Permanent
Indian (exempt income) non-eligible retiring allowances	Code 69	None	Enter amount as required	Permanent
Indian (exempt income) - Employment	Code 71	Various (dependent on TD1-IN determination)	Change employee Tax Status code	ET = I

Completing the year-end adjustment spreadsheet

Description	CRA Code	T4 Box	Action Required	Dayforce Code
Workers' compensation benefits repaid to the employer	Code 77	None	Enter amount of WCB benefits repaid to the employer which was previously included in the employee's salary	Z47
Fishers – Gross income	Code 78	None	Enter amount as required	Z48
Fishers – Net partnership amount	Code 79	None	Enter amount as required	Z49
Fishers – Shareperson amount	Code 80	None	Enter amount as required	Z50
Placement or employment agency workers – Gross income	Code 81	None	Enter amount as required	Z34 or Permanent
Taxi drivers and drivers of other passenger-carrying vehicles – Gross income	Code 82	None	Enter amount as required	Z35 or Permanent
Barbers or hairdressers – Gross income	Code 83	None	Enter amount as required	Z36 or Permanent
Employee-paid premiums for private health services plans	Code 85	None	Enter amount as required	Permanent
Security options election	Code 86	None	Enter the cash-out amount required	Z38
Emergency services volunteer exempt amount	Code 87	None	Enter the amount of the exempt payment (up to \$1,000)	Z32
Indian (exempt income) – self-employment	Code 88	None	Enter the amount of the tax-exempt gross earnings	SQ=S

Description	CRA Code	T4 Box	Action Required	Dayforce Code
Indian Act (exempt income) – RPP Contributions	Code 94	None	Enter the RPP contributions that relate to the tax-exempt employment income	Permanent
Indian Act (exempt income) - Union dues	Code 95	None	Enter the union dues that relate to the tax-exempt employment income	Permanent

Completing Box 29 of the T4—employment codes

Use the following codes if you are completing T4 slips for employees in the described situations.

Note: These types of adjustments cannot be keyed by the customer and must be submitted to your Service Delivery Team for processing on a y-run. Advise your Service Delivery Team if you are submitting this type of adjustment so that sufficient time is available to have them keyed prior to submitting your y-run.

Situation	CRA Code for T4 Box 29	Dayforce Coding Required
Placement or employment agency workers	11	T4E=11
Taxi drivers or drivers of other passenger-carrying vehicles	12	T4E=12
Barbers or hairdressers	13	T4E=13
Withdrawal from a prescribed salary deferral arrangement plan	14	T4E=14
Seasonal Agricultural Workers Program	15	T4E=15
Detached employee - Social security agreement	16	T4E=16
Fishers – Self-employed	17	T4E=17

How to initiate the production of your tax forms with IVR

Once you are confident that you have processed all required year-end adjustments, and you have validated the most recent copy of your year-end reports, you are ready to initiate the production of your tax forms. Do this by telephone using Dayforce's IVR (Interactive Voice Response) Service.

IVR – Interactive Voice Response

The initiation of your tax forms (T4s, T4As, RL-1s, RL-2s) is easy and convenient with Dayforce's IVR (Interactive Voice Response) Service.

You are able to dial in to request your T4s/RL-1s and later call again to check on the **status** of your request.

Important Information on When to Access IVR:

Tax form initiation is available via IVR from **January 2, 2025 to February 21, 2025**

To access the IVR service:

1. Dial 1-800-667-7867.
2. Select your language of choice.
3. Select **Account Management**.
4. Identify yourself with your Branch, Payroll ID, and PIN (this is the same access information used when calling in for payroll totals). If you do not have this information, please contact your Service Delivery Team.
5. Follow the voice prompts for **Tax Form Processing**.

Note: IVR can be utilized for initial requests **only**. To initiate a re-run or re-print, please contact your Service Delivery Team.

Submission of tax forms

When you receive your tax forms, ensure you review and validate your reports one last time. Once you ensure that all information is accurate, distribute the employee copies to your employees, and review the following sections in relation to submitting your tax forms to CRA and Revenu Québec.

T4/RL filing deadline for 2024

CRA and Revenu Québec's deadline for filing returns and distributing forms for year-end 2024 is **February 28, 2025**.

Note: All employee forms must be distributed by the above deadlines.

Electronic filing

Dayforce will electronically file all customers' tax forms with CRA and Revenu Québec.

Failure to meet Dayforce's filing deadline could result in you, the employer, being responsible for filing your company's tax information to CRA and/or Revenu Québec electronically using an alternate method.

CRA Do not send a T4/T4A Summary to CRA.

Revenu Québec The Government-supplied RL-1 Summary (RLZ-1.S-V) must be completed by you and sent to the address shown on the form even if Dayforce has sent your RL-1 information electronically. Your failure to file the RL-1 Summary may result in penalties. The Québec provincial government does not supply Dayforce with RL-1 Summaries. The summary that is sent directly to you, the employer, from the Government of Québec must be used for filing purposes.

For the purpose of completing the RL-1 Summary, Dayforce's Revenu Québec tax filing number is **NP000006**. Please note that this number is for Dayforce customers' filing purposes only and should NOT be used or distributed to anyone other than Revenu Québec.

ACTION REQUIRED: If you have employees in Québec, submit RL-1 Summaries by February 28, 2025.

Making amendments after tax forms are filed

After your tax forms are processed, you may discover that additional changes are required. You can amend your forms and documents manually or contact Dayforce for assistance. For Dayforce to produce updated forms, an additional y-run and tax form re-run may be required. Additional service fees may apply.

Note: Dayforce is unable to reprint or re-run selected forms. When reprints or a re-run are required, all forms are produced. Additional charges apply. If changes are done after the filing deadline, Dayforce will only print the forms for employees with changes.

Tax form cancellations

On occasion, individual tax forms are produced in error. Often when this occurs tax forms are re-run. It is important to advise you that if original forms have already been filed with CRA or Revenu Québec, and you will NOT be filing amended forms to replace them, **it is your responsibility to contact Dayforce to initiate a cancellation request.**

As an example, 2024 tax forms have been processed and filed with CRA (100 - T4s and 5 - T4As). It is discovered that the 5 T4As have been produced in error and are not required (the earnings and deductions should be on the T4). You complete the following steps to correct the error:

1. You make the necessary adjustments to your year-to-dates to move the earnings and deductions from the T4A to the T4. This results in a zero T4A balance.
2. Your tax forms are re-run (as amended) producing 100 - T4s and 0 - T4As.
3. You **MUST** initiate a cancellation request for the 5 invalid T4As.

As Dayforce filed these form(s) on your behalf, please contact your Service Delivery Team to initiate a cancellation.

If you do not initiate a cancellation request, your totals will be overstated and will not match your annual remittances. This may result in CRA/Revenu Québec contacting you for clarification.

Special Note for Province of Employment errors: A tax form cancellation request must be initiated if the only error on the form is an incorrect province of employment. If you intend, for example, for an employee's Saskatchewan (SK) form to **replace** their original Manitoba (MB) form (rather than be **in addition** to the MB form) **cancel** the MB form. In these limited circumstances, an amendment of the original form is not possible. If you do not initiate a cancellation, the original data for that employee will remain on file with the agency and their total income will be overstated.

Issuing an amended T4/T4A

Follow these steps if your forms have been distributed to employees and you are unable to retrieve the affected forms and/or have filed them with CRA.

- Manually prepare the form(s) using the corrected information. Ensure they are completed in their entirety. (Forms can be located at <https://www.canada.ca/en/revenue-agency/services/forms-publications/forms>).
- Clearly identify the new form(s) as **AMENDED**.
- Send Copy 1 of the amended form(s) and a letter explaining the reason for the amendment(s) to the Taxation Centre that serves your region. Include your business number in this letter and indicate how your original form(s) were filed (electronically or paper). The addresses of CRA's tax centres are listed in both the **Employers' Guide - Filing the T4 Slip & Summary (RC4120)** and the **Employers' Guide - Payroll Deductions and Remittances (T4001)** publications.
- **Do not submit amended T4** Summaries.
- Distribute the amended forms to the employees.
- Keep the amended employer copies on file for reference.

For further information, see the CRA Employers' Guide - Filing the T4 Slip and Summary.

Issuing an amended RL-1/RL-2

Follow these steps if your forms have been distributed to employees and you are unable to retrieve the affected forms and/or have filed them with Revenu Québec.

- Manually prepare the form(s) using the corrected information. Ensure they are completed in their entirety. Forms can be located at <http://www.revenuquebec.ca/en/sepf/formulaires/>
- Clearly identify the new form(s) as **AMENDED**.
- Indicate on the amended form(s) the number appearing on the upper right-hand corner of the original slip.
- **IMPORTANT:** Send a paper copy of the RL original form(s) along with the form(s) amending them.
- Send Copy 1 of the amended form(s) with a new RL-1 Summary along with a letter explaining the reason for the amendments to Revenu Québec. Include your Revenu Québec Business Number in this letter and indicate how your original form(s) were filed (electronically or paper). The address is shown in Revenu Quebec's Guide to Filing the RL-1 Slip - Employment and Other Income (RL-1.G-V).
- Distribute the amended forms to the employees.
- Keep the amended employer copies on file for reference.

For further information, see Revenu Quebec's **Guide to Filing the RL-1 Slip - Employment and Other Income (RL-1.G-V)**.

If you would like Dayforce to file your amended forms, please call your Service Delivery Team for assistance.

Special Note for Social Insurance Numbers(SIN) errors: If you need to amend an employee SIN on a Revenu Québec tax form, you **must** submit a new original form and initiate a cancellation request for the form with the error.

Filing NR4 tax forms

An NR4 return must be filed if you are responsible for reporting and withholding Part XIII tax according to the **Income Tax Act**. This is a withholding tax imposed on certain amounts paid or credited to non-residents of Canada. NR4 slips are used to report income such as pensions, annuities or investments.

Dayforce can produce self-sealed NR4 forms for issuance to employees, and can electronically file your NR4 information to CRA. Please contact your Service Delivery Team for instructions regarding the setup of the payroll codes and the employee information necessary to produce NR4s.

CRA summaries

If Dayforce does not produce your tax forms and you require CRA summaries, fillable summaries can be obtained at <https://www.canada.ca/en/revenue-agency/services/forms-publications.html> or by calling 1-800-959-5525.

CRA provides employers with active Payroll Account Numbers (PAC) with a Web Access Code (WAC) inviting them to file electronically.

If you require a Web Access Code (WAC), but have not received one, please contact CRA's E-Services at 1-877-322-7849 (English and French) or visit the website at https://apps.cra-arc.gc.ca/ebci/leb0/wacretrieve/pub/disclaimer.action?request_locale=en

Note: If Dayforce is filing electronically on your behalf, you do not require a Web Access Code and no action is required on your part.

Revenu Québec Summary

Dayforce **does not** file the RL-1 Summary for you to the government. It is your responsibility to do so.

Provincial health care levies & WCB

Ontario Employer Health Tax (EHT)

Each Ontario employer must file an annual return for each calendar year. The annual return for 2024 is due on or before March 15, 2025. The purpose of the annual return is to reconcile the annual tax due with the instalments paid. For monthly remitters the instalments paid are calculated on the *previous month's* payroll and are remitted on the 15th of the following month. An employer is required to pay monthly instalments if their annual "Total Ontario Gross Remuneration" exceeds \$1,200,000.

An Annual EHT Return must be filed by:

- All employers who received their EHT Annual Return
- Eligible employers whose "Total Ontario Gross Remuneration" is greater than their available exemption for 2024
- Eligible employers with annual "Total Ontario Gross Remuneration" that does not exceed their available exemption amount if the employer:
 - was a member of an associated group on December 31, 2024; or
 - made EHT instalment payments in 2024
- New eligible employers whose annual "Total Ontario Gross Remuneration" is greater than their allowable prorated exemption amount.

If Dayforce is remitting on your behalf, the balancing of payments and the filing of the annual return is still your responsibility. Refer to the General Client Information section of your Year-End Balancing Reports for information to assist you in completing the Annual Ontario EHT Return.

Debit or credit balance

If your completed EHT return reflects a balance owing, you must submit a payment to the Ministry of Finance with your Annual EHT Return.

- If the completed EHT return reflects a credit balance and the credit is deemed to be valid by the Ministry of Finance, and Dayforce is currently remitting to the Ministry of Finance, you will receive a refund directly from the Ministry of Finance.
- If you have selected "Credit to Next Year" on your EHT return, the credit will remain on your account, indefinitely, until you contact the Ministry to request a refund.

Ontario EHT annual exemption

In 2020, the government announced the annual EHT exemption increase from \$490,000 to \$1 million will be permanent. The \$1M exemption is set to continue in place until 2028. There is no exemption for eligible employers and groups of associated employers with annual Ontario payroll over \$5 million (unless the employer is a registered charity).

EHT annual year-end return - annual remitters

Employers whose “Total Ontario Gross Remuneration” for the year is \$1,200,000 or less are not required to pay instalments. They remit any tax owing only once a year.

EHT annual year-end return - monthly remitters

For employers making **monthly** instalments, the amount owing for a year is based on the payroll from January 1 to December 31.

ACTION REQUIRED: If your payroll includes employees in the province of Ontario, **SUBMIT** your Annual EHT Return by **March 15, 2025** (deadline).

All enquiries regarding EHT should be directed to:

Ministry of Finance
Advisory Services, Employer Health Tax
33 King Street West
Oshawa, Ontario
L1H 8H5

Phone: 866-668-8297
Fax: 866-888-3850

Hours of Service: 8:30 am to 5:00 pm (EST) Monday to Friday
Closed Statutory Holidays

Web: <http://www.fin.gov.on.ca/en/guides/eht/>

Manitoba Health and Post-Secondary Education Tax Levy (HE levy)

If you have employees in Manitoba and you pay Manitoba Health and Post Secondary Education Tax, you are required to report your year-to-date Manitoba gross earnings from your 2024 T4-T4A Summary(s) on your HE Levy Annual Report. A copy of your 2024 T4-T4A Summary(s) must be included and the report must be submitted by April 1, 2025 to:

Manitoba Finance Taxation Division
 101 - 401 York Avenue
 Winnipeg, Manitoba
 R3C 0P8

While the Taxation Division mails the HE Levy Annual Report to registered employers prior to the due date, it is the employer’s responsibility to file the annual report and remit the tax by the filing deadline even if the report has not been received.

Note: Dayforce transmits the information required in the T4 Summary to CRA, but if you require a copy you can complete the fillable T4/T4A Summary located at <https://www.canada.ca/en/revenue-agency/services/forms-publications.html> or call 1-800-959-2221. CRA no longer sends paper summaries to employers via the mail.

The 2024 rates and thresholds are:

Total Yearly Payroll	Tax Rate
Less than \$2,250,000	Exempt
\$2,250,000 - \$4,500,000	4.3% on the amount in excess of \$2,250,000
Over \$4,500,000	2.15% of the total payroll

ACTION REQUIRED: If your payroll includes employees in the province of Manitoba*, SUBMIT your Health and Post Secondary Education Tax Levy Annual Report by March 31, 2025 (deadline).

* 2024 gross earnings > \$2,250,000

Québec Health Services Fund (QHSF)

To calculate your Worldwide Wage amount to determine your QHSF rate, add the total salaries and wages paid in the year and the total salaries and wages paid by any associated employer (even if the associated employers carry out their activities outside Québec).

As a reminder, in 2024, the upper total payroll threshold for the QC HSF (beyond which the rate is 4.26%) increased to \$7.5 million. This threshold will be automatically adjusted each year as of 2024.

The following rates apply to the Québec Health Services Fund for 2024:

- If your total Worldwide Wages for 2024 are equal to or less than \$1 million, your rate will be 1.65%.
- If your total Worldwide Wages for 2024 are greater than \$1 million but less than \$7.5 million, your rate is based on the following formula:

$$W (\%) = 1.2485 + (0.4015\% \times S), \text{ where}$$

W represents the rate and **S** the quotient obtained by dividing your total Worldwide Wages for 2024 by \$1,000,000.

The rate calculation must be rounded to the second decimal. If the third decimal is equal to or greater than 5, the second decimal must be rounded up to the nearest second decimal.

- If your total Worldwide Wages for 2024 are over \$7.5 million, your rate will be 4.26%.

If an employer is eligible for a reduced rate because they are in the primary or manufacturing sectors, the contribution rate is determined as follows:

- If total Worldwide Wages for 2024 are equal to or less than \$1 million, the rate is 1.25%.
- If total Worldwide Wages for 2024 are greater than \$1 million but less than \$7.5 million, the rate is based on the following formula:

$$\mathbf{W} (\%) = 0.7869 + (0.4631\% \times \mathbf{S}), \text{ where}$$

W represents the rate and **S** the quotient obtained by dividing the total payroll for 2024 by \$1,000,000.

- If your total Worldwide Wages for 2024 are over \$7.5 million, your rate is 4.26%.

Note: Your actual contribution rate is determined by using your TOTAL Worldwide Wages amount for 2024. The Québec Health Services Fund contributions reconciliation at year-end may indicate that remuneration, subject to QHSF, is more than was originally estimated for the purpose of establishing the correct contribution rate. Employers are then expected to modify their QHSF rate, and make any required adjustments, before the last remittance of the year. Employers that have under-remitted should not delay addressing this until they file the Summary of Source Deductions and Employer Contributions –RLZ-1.S-V since interest will be added to the amount payable and a penalty may be imposed. For further details, see the back of the RL-1 Summary.

ACTION REQUIRED: If your payroll includes employees in the province of Québec, SUBMIT your 2024 Total Worldwide Wages (Formulaire d'information pour le Fonds des services de santé du Québec / Québec Health Services Fund Information Form, page 65) to Dayforce, 5 days prior to the first pay of 2025 (deadline).

Québec CNESST (Commission de la santé et de la sécurité du travail)

Employers paying employees working in the province of Québec must pay their CSST insurance premiums to Revenu Québec based on their remittance frequency. These payments are to be reconciled annually by employers against the **actual insurable wages** paid to employees.

If you are an employer paying Québec employees, you must file CSST payments with your Revenu Québec source deductions and employer contributions (weekly, twice

monthly, monthly or quarterly, as per your existing remitting schedule). Even if you are not subject to source deductions or employer contributions, you will still need to direct your CSST payments to Revenu Québec.

Dayforce can remit your CSST premium payments on the same remittance frequency in place today for your source deductions and employer contributions to Revenu Québec.

As a reminder, it remains the employer's responsibility to balance and submit an annual Statement of Wages to the CNESST by March 15, 2025.

The CNESST reconciles the total premiums paid during the year to the premium amount due, based on actual insurable wages reported. If there is a balance owing, the CNESST invoices the employer directly and will issue an assessment notice. Employers will also receive an assessment notice for the payment of the annual Administration fee.

If you would like Dayforce to calculate CSST, or calculate and remit your CSST payments to Revenu Québec on your behalf, please contact your Service Delivery Team.

For more information please visit the CNESST website at <https://www.cnesst.gouv.qc.ca/en>

British Columbia Employer Health Tax

British Columbia Employer Health Tax (BC EHT) is a health tax that is payable by employers on BC remuneration.

BC EHT is payable when an employer's total BC remuneration (including amounts paid by Associated Employers) is greater than the \$1,000,000 exemption amount.

Charities are subject to unique requirements.

Note: Unlike other provincial/territorial health taxes, BC EHT is not based on current BC earnings as they are paid. It is based on the BC Remuneration from the prior year or an estimate of the current year's BC Remuneration.

Another important difference is that Dayforce does **NOT** remit this tax to the BC government. The calculation and remittance of BC EHT are the responsibility of the employer.

Tax Rates for Employers with B.C. payroll:

- \$1,000,000 or less: no EHT
- Between \$1,000,000.01 and \$1,500,000: 5.85% x (Payroll - \$500,000)
- Greater than \$1,500,000: 1.95% on total payroll

If you have employees in British Columbia, you are responsible for completing and filing your BC EHT annual return and final quarterly payment for 2024 by March 31, 2025 and for making all tax payments. Dayforce does not remit BC EHT on behalf of employers.

Special Considerations

- Employers are responsible for verifying that the taxable T4/T4A income of BC employees has been included in BC Remuneration. The BC Ministry of Finance [web site](#) lists included and excluded remuneration.

Newfoundland and Labrador Health and Post Secondary Education Tax (HAPSET)

HAPSET is a payroll tax which, at a rate of 2%, is payable by employers whose annual remuneration in Newfoundland and Labrador exceeds a predetermined exemption threshold.

Employers whose cumulative payroll will not exceed the \$1.3 million exemption threshold are not required to pay this payroll tax.

Employers who are associated with other corporations or who are in partnership with other employers are required to file an allocation agreement for the purposes of allocating the exemption threshold.

It is recommended that all Newfoundland and Labrador employers file an Annual Declaration Return form along with your T4 and/or T4A Summaries for the relevant year. **The Department of Finance may levy penalties for payments or returns that are filed late or when full payment is not made by the due date.** The form can be located at http://www.fin.gov.nl.ca/fin/tax_programs_incentives/business/hapset_regular_tax.pdf

ACTION REQUIRED: If your payroll includes employees in the province of Newfoundland and Labrador**, **submit your Annual Declaration Return by March 31, 2025.**

Workers' compensation board (WCB) reports

If you are registered with WCB and are paying premiums, you are required to submit a report to the Workers' Compensation Board for each province/territory in which you have employees. Your provincial WCB should communicate to you the rates at which to calculate your premiums owing. The information for completing these reports may be found in the WCB Assessable Earnings Report in your year-end reports package.

Workers' Compensation Maximum Assessable Earnings for 2024

Province	Maximum Assessable Earnings for 2024
BC*	116,700
AB	104,600
SK	99,945
MB	160,510
ON	112,500
QC	94,000
NB	76,900
NS	72,500
PE	78,400
NL	76,955
YT	102,017
NT/NU	110,600

Troubleshooting

While processing your year-end, you are bound to have questions that aren't answered within the year-end guide. The focus of this section is to provide you with answers to common year-end questions.

Q: Why do some of my codes have another letter or character beside them on my reports?

A: If you are using codes A-H and 1-8, these are plan type codes (P codes), which identify how the deduction/benefit is set up. For example, if the code is 1E, and the P code is 'V', the code displays as '1VE' on the Matrix and Recap report(s). This extra character is not required when making year-end adjustments.

Q: How do I initiate the production of my tax forms?

A: Once you are confident that you have processed all required year-end adjustments, and you have validated the most recent copy of your year-end reports, you are ready to initiate the production of your tax forms. Do this by telephone using Dayforce's IVR (Interactive Voice Response) Service. See *How to initiate the production of your tax forms with IVR*, page 47.

Q: Why is Dayforce's deadline for filing earlier than the deadline set by CRA and Revenu Québec?

A: Once the Dayforce deadline is reached, there are certain steps and procedures Dayforce must complete in order to validate and submit information to CRA and Revenu Québec. This time is required to meet the processing deadline set by CRA and Revenu Québec.

Q: Should I have received a T4 Summary from Dayforce?

A: No. Since tax forms are filed electronically, CRA does not require a Summary. The T4 recap report in your year-end package contains all of the information required on the Summary. For this reason, Dayforce does not print actual summaries. Another reason is that in the past customers have inadvertently sent the copy of the Summary, provided by Dayforce, resulting in calls from CRA looking for their tax forms, which had already been sent by Dayforce. If you require an actual Summary, **CRA's fillable T4 and T4A Summaries can be completed at <https://www.canada.ca/en/revenue-agency/services/forms-publications/forms.html>**. CRA no longer sends paper summaries to employers via the mail.

For further instruction, review *Submission of tax forms*, page 48.

Q: Why doesn't Dayforce file Québec RL-1 Summaries?

A: Even though Dayforce files your RL-1 information electronically, you are still required to submit RL-1 summaries to Revenu Québec. Revenu Québec automatically sends a specially coded **Summary of Source Deductions and Employer Contributions** form

to all employers who have a registered Québec provincial taxation number. This is the form which must be submitted to them.

Q: Where do I find the WCB/CSST Assessable Earnings amounts by employee?

A: In your Year-End Balancing Report at the employee level, the T4/T4A Employee Totals page. You can also request a more detailed report by contacting your Service Delivery Team. (Additional service fees apply.)

Note: To commence your review earlier in the year, the above package of reports can be requested off cycle throughout the year. Please contact your Service Delivery Team if this is of interest to you. (Additional service fees apply.)

Q: If I have employees with a double last name, how do I get both to print properly on the tax forms?

A: When entering the employee's last name, put an underscore character between them (this may be required to be processed as a year-end adjustment). The system does not print the underscore; a space is inserted during processing and prints both last names in the last name field.

For example: Last Name: Doe_Smith
First Name: Mary

Result on tax form: Mary Doe Smith

Q: If I process a 27th or 53rd pay of the year, why is it that the CPP/QPP exemption should not be applied?

A: The Dayforce system prorates the annual CPP/QPP exemption amount based on your payroll frequency (12-monthly, 24-semi-monthly, 26-bi-weekly and 52-weekly). If you are processing a 27th (weekly) or 53rd (bi-weekly) payroll in the year, the system has already considered the annual basic exemption of \$3,500.00. Therefore, over applying the per pay exempt earnings could result in employee and employer CPP/QPP Deficiencies (under payments).

Q: Why can't I key Z-codes to code the "Other Information" Area of the T4 throughout the year?

A: The fields Z31-Z50 are available to be used by customers to track other information throughout the year. Depending on the customer's needs, many of these fields may already be used for other things. In order to ensure that the T4 only reports applicable year-end information, these fields only update on the T4 reports generated with a y-run.

Q: I received a late filing letter from CRA, what should I do about it?

A: Even though Dayforce electronically files your year-end information for you, there may still be circumstances where you could receive a late filing letter from CRA and/or Revenu Québec. If you do receive such a letter, please contact your Service Delivery Team immediately for assistance.

APPENDIX A

Canada Post province and territory symbols

English Name	Symbol	French Name
Alberta	AB	Alberta
British Columbia	BC	Colombie-Britannique
Manitoba	MB	Manitoba
New Brunswick	NB	Nouveau-Brunswick
Newfoundland & Labrador	NL	Terre-Neuve & Labrador
Northwest Territories	NT	Territoires du Nord-Ouest
Nova Scotia	NS	Nouvelle-Ecosse
Nunavut	NU	Nunavut
Ontario	ON	Ontario
Prince Edward Island	PE	Île-du-Prince-Édouard
Québec	QC	Québec
Saskatchewan	SK	Saskatchewan
Yukon	YT	Yukon

APPENDIX B

Province codes

The Province Code (PC) controls the province or country that prints in Box 10 of the T4. The following is a list of Dayforce's valid province codes:

PC CODE	PROVINCE	PC CODE	PROVINCE
1	Newfoundland and Labrador	2	Nova Scotia
3	New Brunswick	4	Québec
5	Ontario	6	Manitoba
7	Saskatchewan	8	Alberta
9	British Columbia	N	Northwest Territories
P	Prince Edward Island	Y	Yukon
V	Nunavut	U	United States
O (alpha)	If an employee worked in a country other than Canada or the USA, or worked in Canada beyond the limits of a province or territory, on an offshore oil rig for example, this code enters 'ZZ' in Box 10.		
X	For other jurisdictions, prints 'ZZ' in Box 10.		

Appendix C

Tax form sort options

Your tax form sort order is displayed on the General Tax Form Information and Earnings and Deduction/Benefit Reference Tables, item no. 2, found in your year-end reports package.

While the primary sort for all year-end reports and forms is by Business Number, you have the option of choosing 2 additional sorts.

For example, if you would like your tax forms sorted Numerically (employee number) within Department (DC code), you would specify:

- the Main sort as 'Department', and
- the Second sort as 'Numeric'

This will result in tax forms and year-end reports sorted by: Employee Number, within Department (DC code), within Business Number.

Please submit your sort options along with your changes via the General Tax Form Information and Earnings and Deduction/Benefit Reference Tables, or by contacting your Service Delivery Team. You may also wish to ask for all terminated employees to appear at the end of your sorted tax forms.

Description
Numeric (by employee number)
Alpha (by surname)
Social Insurance Number (SIN)
Province (code PC)
Department (code DC)
X Code
Y Code
Z Code

Glossary

Y-run

Year-End Adjustment runs – y-runs are used to process year-end adjustments (to employee year-to-date totals) and to make year-end modifications to name, address and S.I.N. numbers, **AFTER** the first payroll of the new year has been processed.

T4s/RL-1s are not produced when a y-run is processed.

Please refer to the 'Year-End Adjustments' section for more detail.

9999

Part of the Insync year-end procedure is to transfer terminated employees off your active payroll database to a test database, which is payroll 9999.

Formulaire d'information pour le Fonds des services de santé du Québec / Québec Health Services Fund Information Form
